

Federation of Window Cleaners Training Course

"Cleaning Windows Safely"

Written by window cleaners, for window cleaners – this one-day IOSH (Institution of Occupational Safety & Health) accredited Health & Safety course covers both the use of waterfed poles and portable ladders.

A no nonsense – hands on practical and theory course with an IOSH Certificate at the end. Giving you an industry recognised lifetime qualification which will help you or your organisation comply with legislative training requirements

COURSE COMMENTS – Stockport

"The course was very helpful; Bryan the tutor was very experienced in his field of work and understood us as cleaners."

Browns Commercial W.C. Ltd

"Bryan is a great tutor and very helpful. This is a great service." **Joseph Barter – Clifton CS**

"Good content, informative, nice location, good food & great tutor." **Karl Allitt – Clifton CS**

"Bryan was a fantastic tutor. I have finished this course today, going home with plenty of

knowledge in, not just H&S but also in window cleaning in general."

Daniel Lunn – Whitecroft CS

"I feel happy about the knowledge I have learnt today and think Bryan our tutor was really helpful, a good teacher who explained everything well." **Michael – Art Cleaning.**

"Bryan was very helpful throughout the training course and the day was very informative."

Jason Art

Risk Assessment Training Course

This one day course was designed and IOSH accredited **Risk Assessment for Cleaning windows, guttering and external façades**. The course is delivered by experienced window cleaners who also manage their own businesses but have suitable health and safety knowledge.

This one-day training course for Cleaning Windows, Gutters and External façades will identify:

- Any applicable legislation
- Discuss what to look for
- Show you how to put controls in place

Can be used as prior learning proof for City & Guilds level 2.

This course is aimed at everyone within the window and specialist cleaning industry, specifically self-employed, employees, supervisors, managers and safety officers. In addition to some examples in the paperwork of generic risk assessments, method statements are also looked at.

COURSE COSTS & WHATS INCLUDED

- £135.00** + VAT for members
 - £185.00** + VAT for non-members
 - A lifetime certificate and lunch on the day + Free safety guide and sticker for every candidate
 - Discount on number of employees booked on a course
- Spaces are limited so early booking is recommended.

COURSE COMMENTS – London

"I feel I will be in a better position to tender for more lucrative work."

"A very worthwhile, in today's environment it pays to know what you're doing with Health and Safety."

"Good for future reference when pricing jobs and considering safety."

"After 27 years in the business, I was surprised with how much I learned."

"A very good course, quite in depth and quite a lot to learn, but very good. Well done!"

"This course has provided a good overview of what's needed to produce good risk assessments."
