This course is designed to provide you with the necessary foundation knowledge which will enable you to keep yourself and colleagues safe and healthy whilst undertaking the job of cleaning windows.

Written by window cleaners for window cleaners – this one-day IOSH (Institution of Occupational Safety & Health) accredited Health & Safety course covers both the use of water fed poles and portable ladders.

It's a no-nonsense – hands on practical and theory course with an IOSH certificate at the end; giving you an industry recognised lifetime qualification which will help you or your organisation comply with legislative training requirements.

COMMENTS:

'It's a good course for anyone trying to set up a business, or has just started window cleaning'

'A very useful course which should be a pre-requisite for any serious window cleaner, the course content is very relevant'

A very helpful course just what I needed; now looking forward to doing the Risk Assessment course.

This one day IOSH accredited Risk Assessment for cleaning windows; guttering and external façades training course was designed by experienced Window Cleaners and is delivered by experienced window cleaners who have obtained the suitable health and safety knowledge and qualifications.

This one-day Risk Assessment training course for Cleaning Windows, Gutters and external façades will:

- Identify any applicable legislation;
- Discuss what to look for;
- Show you how to put controls in place;
- Show you how to draft out the risk assessments.
- In addition to some examples in the paperwork of generic risk assessments, method statements are also looked at.

The course is aimed at everyone within the window and specialist cleaning industry, specifically self-employed, employees, supervisors, managers and safety officers.

COMMENTS:

"Excellent and informative course that met my objectives and more – I would recommend this course to others"
