Formed in 1947 FWC is the Professional Federation for Window Cleaners

## The HSE are carrying out some final testing for Ministers on four key guides. These are:

Health and Safety Made Simple (HSMS)  
The Health and Safety Toolbox  
INDG401 Working at Height: A brief guide  
INDG455 Safe Use of ladders and stepladders

We would like to speak to small business owners (employing less than 50 people), or those dealing with health and safety in those businesses, working in offices or working in the retail, manufacturing, leisure and services sectors. For the revised work at height guidance, we also want to speak to small construction businesses.

The HSE approached the cleaning industry liaison forum representatives to ask any interested members if they would like to participate in this final testing exercise at an event in London on **2nd October in the BIS conference centre**. The session is scheduled to run for 3 hours and reasonable travel expenses will be reimbursed.

We would very much welcome your assistance with this. Please could you send your contact details to the FWC for anyone who is interested and available to attend by **19th September**. [info@f-w-c.co.uk](mailto:info@f-w-c.co.uk)
